

Your Logistics Solution

Company Background

- Railex was born in 2006 out of the need to link manufacturers, shippers, retailers and distributors via consistent, fast and "green" transportation.
- The Railex distribution platform utilizes a hybrid of short-haul trucks, consolidation/deconsolidation centers and expedited rail system.

WHY RAILEX IS YOUR LOGISTICS SOLUTION

5 Day, Coast-to-Coast Rail Transit Schedule

California and Washington to New York 52 weeks per year, private, non-stop rail service

Security

Every pallet is barcoded and tracked via our GPS system ensuring real-time inventory

Refrigerated Platform - Temperature Controlled Unit Train

64-foot series railcars with fresh air exchange are loaded and unloaded inside our state-of-the-art, cooled facilities, never breaking the cold chain

Green Shipping Solutions and Sustainability

Our innovative rail delivery solutions save over 200,000 gallons of fuel per week and result in 3x fewer emissions versus long-haul truck delivery

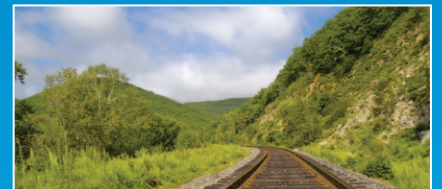

Unmatched Capacity

Extensive availability - takes long-haul truck capacity issues out of play

Forward Distribution

Three, state-of-the-art, 225,000 square foot refrigerated freight forward distribution facilities
